**Results-oriented Data Analyst | Business Intelligence Consultant with expertise in SAP Solutions and data analysis, seeking opportunities to leverage my skills and experience in a dynamic data-related role.**

## EXPERIENCE

### Promos REC, Business Intelligence Consultant

Berlin, GERMANY, Jan. 2012 – Dec. 2014

- Designed and Customized the BI component of the PROMOS.GT solution, a tailored SAP® system for the housing industry, including ETL strategies and data visualization.
- Implemented robust SAP authorization concepts, ensuring data security and integrity.
- Facilitated client meetings, translating business requirements into tailored solutions.

### Deloitte Consulting, Business Intelligence Consultant

Berlin, GERMANY, Jan. 2010 – Dec. 2012

- At Nord/LB Bank: Member of the Finance and Control BI Team, spearheaded SAP BW processes and workflows, including data modeling, ETL processes, and data visualization.
- At Luxembourg Customs and Border Protection: Made significant contributions to the technical design and implementation of the BW solution, with a focus on data extraction from R/3 PSCD and FM modules. I played a pivotal role in providing support and training to key users.
- At NATO Support and Procurement Agency Luxembourg: Assumed responsibility for SAP authorization management within Luxembourg and was an integral member of the SAP GRC Access Control implementation team.

### Valeo Security Systems, Business Intelligence Consultant

Munich, GERMANY, Jan. 2008– Dec. 2009

- Migration to SAP BW 7.3: Led a seamless migration from SAP BW 3.0 to 7.3, adapting local solutions and ensuring data integrity. Coordinated communication and collaboration with the development team, oversaw thorough testing, and developed new authorization concepts.
- Local BI Manager: Spearheaded the planning and deployment of new CORE solutions across all BW servers within the branch, accompanied by comprehensive training for key users.
- Local SAP Admin: Managed servers' administration, overseeing user management, authorization management, and the handling of transport orders, ensuring system stability and security.

### Siemens VDO Automotive, Business Analyst

Toulouse, FRANCE, Jan. 2007– May 2007

- Played a key role in financial audit preparation within the Finance Controlling Support department, focusing on SOA 404 and GAAP compliance.(Environment : SAP - Modules : FI/CO, BC)
